# .Access Fileshare space on Windows vV1

A dedicated filesharing service has been setup on the i-Police DEV Platform to be able to share technical data or push work documents to the platform and allow local sharing in all DEV Environments.

It's accessible only when **connected to the VPN**.
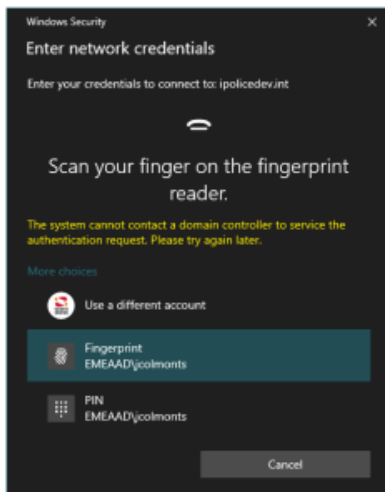

Accessing the fileshare

To access the fileshare **locally from your company laptop**:
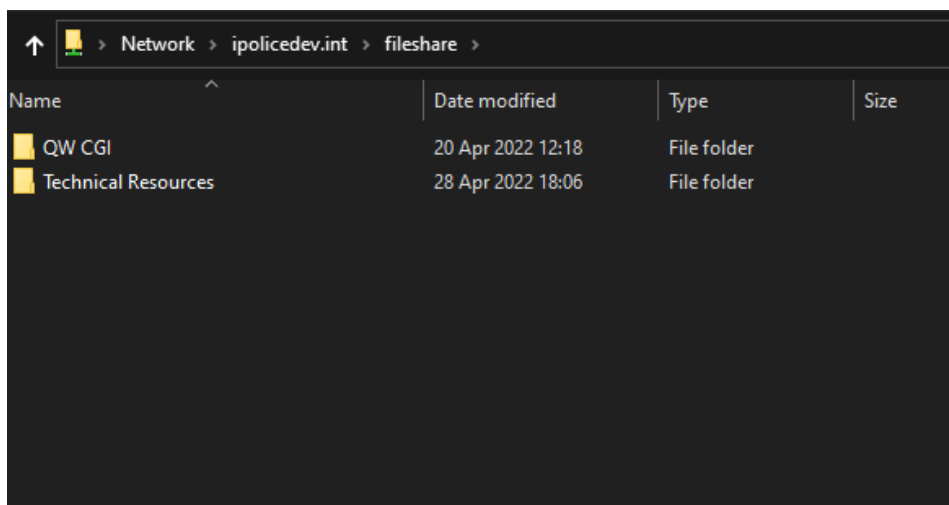

1. Open **Windows File Explorer**

2. In the path text area, enter the **Fileshare path** '*ipolicedev.int**fileshare'*
3. You should be asked to enter credentials :

4. Select **Use a different account**
5. Enter your **IPOLICEDEV Domain** account, don't forget to **prefix your username with the domain name of the DEV Platform** ('*IPOLICEDEV'* and *'ipolicedev.int'* will work) **:**

6. Access should be granted :

Structure and access control
